

Used Antifreeze

Collect in a plastic container with a lid, label as "Used Antifreeze" and turn in to the HMCC (598-1311) for recycling.

Used Batteries

Collect used batteries and turn them into the HMCC for recycling. Users must properly separate some batteries (lithium, ni-cad, mercury, nickel metal hydride, silver-zinc and small sealed lead acid) to prevent short-circuiting during storage and transportation by either placing batteries in the original inner package, taping the positive end of the batteries, or by using plastic "baggies" to separate individual batteries.

Used Oil

Collect used oil in a container with a lid, label the container "Used Oil" and transfer to a collection tank. The tank located at DFMWR Auto Craft Center (BLDG 1902) can be used if no tank is located in your area. Do not leave containers of used oil unattended. Make sure the used oil is properly poured into the collection tank, and the lid to the collection tank is closed.

Fluorescent Light Bulbs

Used fluorescent bulbs have special labeling requirements - contact DPW-ENRD for labels or information. Collect in original boxes and take to HMCC.

Plastic Bags

Turn in plastic bread and grocery bags at the Commissary or the Recycling Center.

The Three Rs of Recycling

1. **REDUCE**...use less
2. **REUSE**...put back in service without change
3. **RECYCLE**...put into service with change

FORT RUCKER RECYCLING CENTER

Cardboard

All cardboard may be recycled by bringing it to the recycling center for the incentive program. DPW-ENRD also collects cardboard from collection points across the installation. Cardboard must be flattened prior to placing in collection containers or bringing to Recycling Center. Call to arrange a special pick-up when moving offices or cleaning out files. If your building generates a large amount of cardboard on a regular basis, contact the Recycling Center, and they will provide a cardboard collection bin for your building and add you on the pick-up schedule. Pick-ups are NOT counted for incentive program.

Paper

Copier paper, writing paper, memos, index cards, glossy computer printouts, bond copier paper, manuals without glue or plastic binder, notebook paper, correspondence, fax paper, brochures, post-it notes, manila file folders, and envelopes should all be placed in collection containers and brought to the Recycling Center for the incentive program. The Recycling Center provides some 90-gallon paper recycling carts with a varied pick-up schedule. Materials picked up by the Recycling Center are NOT counted for incentive program totals.

Aluminum Cans

Collect and bring cans to the Recycling Center for the incentive program. Keep cans segregated from other materials. The Recycling Center has some containers that may be used for collection.

Plastic Bottles

All empty plastics (except # 6 Styrofoam) may be recycled for the incentive program. Plastics can be dropped off at the Recycling Center in designated containers. The Recycling Center has some containers that may be used for collection.

Printer & Toner Cartridges

All types of printer and toner cartridges can be turned in at the Recycling Center. Place used cartridges in the original containers (if possible). Bring cartridges to the Recycling Center and place in designated bins.

Used Cell Phones

Used cell phones are donated to the Cell Phones for Soldiers program and may be turned in to the Recycling Center.

INCENTIVE PROGRAM

The incentive program pays organizations with DFMWR funds for bringing **SEGREGATED** recyclables to the Recycling Center. The type and quantity of materials turned in each quarter determine amounts. Materials included are: aluminum cans, plastic bottles, paper and cardboard. Unsegregated materials and materials picked up by the Recycling Center do **NOT** count towards earned credits in the program. See EMS-WI-SW011, *Recycling Incentive Program*, for detailed information about the program.

Metal

All scrap metal and metal furniture not on a hand receipt should be dropped off at the appropriate roll off behind the Recycling Center.

Wood

All wood products to include pallets, crates and wooden furniture not on a hand receipt may be delivered to the wood lay down yard beside DLADS. All heavy metal (i.e., handles, hinges, coaster wheels) will need to be removed prior to delivery. Call 255-9041 to schedule an appointment at the yard.

Electronics

Discarded electronic equipment (also called e-waste), such as computers, TVs (no CRTs), and audio equipment, can leach toxic metals like lead and mercury into the environment. These items may be dropped off at the Recycling Center during normal business hours.

MICROWAVES, REFRIGERATORS, HAND RECEIPTED ITEMS WILL NOT BE ACCEPTED
